syndrome, pain in (Birnbaum), 182
Population problems, human fertility, and (Greep), 886 (B. rev.)
Postpartum patient, double blind evaluation of analgesic agents in (Benson), 304 (Abst.)
Postterm pregnancy, problem of (Lucas, Anctil, and Callagan), 241
Potassium transport in kidney and placenta in normal pregnancy and in experimental toxemia (Zunker, Phillips, and McKay), 369
Precocity, gametogenic, in twelve-month-old female (Martin, Lamb, and Stempfel), 457
Pregnancies in community, analysis of outcome of all (Bierman et al.), 37
complicated by diabetes mellitus, use of urinary estriol excretion in management of (Greene et al.), 684
following splenorenal shunt, report of two (Hanzlik), 1147 (Comm. in brief)
therapeutic evacuation of uterus in, beyond twelfth week (Bora), 1148 (Comm. in brief)
of women heterozygous for phenylketonuria, elevation of plasma phenylalanine level during (Kang and Paine), 300 (Abst.)
Pregnancy, abdominal retention of dead fetus following spontaneous rupture of uterus during (Fahmy and Amin), 581 (Comm. in brief)
abnormal, quantitative serum chorionic gonadotropin studies in (Goplerud and Bradbury), 23
Pregnancy—cont'd
bendroflumethiazide and (MacGillivray), 879; reply (Tatum), 879 (Correspondence)
bilateral multicentric ovarian luteomas of, associated with masculinization of female infant (Malinak and Miller), 251
blood volume adjustments in normal obstetric patients with particular reference to third trimester of (Low, Johnston, and McBride), 356
and carcinoma of uterus (Molitor), 307 (Abst.)
cervix in, 232
childbirth, and menopause related to development of stress incontinence (Beck and Hsu), 820
detection of early (Sato and Greenblatt), 31
diabetes in (Boronow and McElin), 1022
effects of, on concentration of creatine kinase in serum, skeletal muscle, and myometrium (Emery and Pascasio), 18
experimental study during, neurohypophyseal hormone release in human (Cobo et al.), 905
and heart diseases (Zoltan), 889 (Abst.)
human, effect of sparteine sulfate upon uterine activity in (Hendricks et al.), 1
jaundice of, review (Iber), 721 (Current developments)
and labor, urinary excretion of human chorionic gonadotropin during prolonged (Danielsson), 895
multiple, prevention of prematurity in (Earter et al.), 787
normal, and experimental toxemia, potassium transport in kidney and placenta in (Zunker, Phillips, and McKay), 369
factors influencing birth weight in (Love and Kinch), 342
in normal persons and in patient with von Willebrand's disease, elevation of factor VIII (antihemophilic factor) during (Strauss and Diamond), 301 (Abst.)
outcome, relationship of smoking to (Underwood et al.), 270
ovarian (Boronow et al.), 1095
at parturition and in lactation, assay of human growth hormone in (Greenwood, Hunter, and Klopper), 888 (Abst.)
postterm, problem of (Lucas, Anctil, and Callagan), 241
probable toxemia of, in patient with Addison's disease (Langford), 296 (Comm. in brief)
and puerperium, blood volume changes in, anemia associated with hydatidiform mole (Pritchard), 621
pneumococcal meningitis in (Lucas), 889 (Abst.)
and spondylolisthesis (Trelford), 320
successful quadruplet, in patient treated with human menopausal gonadotropin (Neuwirth et al.), 982
toxemia of, 837-851
and chorioangioma (Heggtveit, de Carvalho, and Nuyens), 291 (Comm. in brief)
statistic evaluation of between 1930 and 1962 (Lietz), 306 (Abst.)
toxemias of, observations on (Brody), 301 (Abst.)
transport of radioactive sodium across rat placenta in experimental toxemia of (Quigley, Phillips, and McKay), 377
widespread metastasis during, carcinoma arising in a retroperitoneal Müllerian cyst, with (Douglas, Kastin, and Huntington), 210
Pregnant human uterus, action of isoxsuprine and its (+) isomer on (Eriksson and Wiqvist), 1076
mice, effects of thalidomide and trypan blue on uteri and concepti of (McCafferty, Wood, and Knisely), 260
and parturient rabbits, effect of progesterone on electric activity and intrauterine pressure of (Csapo and Takeda), 221
uterine contractility, human, in vivo effect of amyl nitrite on (Kumar, Zourlas, and Barnes), 1066

women, phagocytic capabilities of leukocytes in, role of phagocyte in host-parasite interactions (Mitchell and Sbarra), 755
effect of acetylcholine and atropine upon uterine contractility in (Sala and Fisch), 1069
Premature infants, prenatal history of, with birth weights of 1,500 grams or less (Wilson, Parmelee, and Huggins), 300 (Abst.)
Prematurity in multiple pregnancy, prevention of (Barter et al.), 787
Prenatal history of premature infants with birth weights of 1,500 grams or less (Wilson, Parmelee, and Huggins), 300 (Abst.)
Presentation, breech, and perinatal mortality (Hall et al.), 665
Pressure, intrauterine, and electric activity of pregnant parturient rabbits, effect of progesterone on (Csapo and Takeda), 221
studies, simultaneous intraurethral and intravesical, in patients surgically treated for stress incontinence (Beck, Hsu, and Maughan), 314
Primary ovarian failure (Kinch et al.), 630
Progesterone concentrations in uterine venous blood after intra-amniotic injection of hypertonic saline in midpregnancy (Short et al.), 132 (Current investigation)
effect on electric activity and intrauterine pressure of pregnant and parturient rabbits (Csapo and Takeda), 221
estrogen and, on pH of uterine fluid in rat (Marcus), 114
on oxytocic action of estradiol-17β (Pinto et al.), 1084
Prolapse, uterine, with stress incontinence, clinical investigation into (Bailey), 890 (Abst.)
umbilical cord (Nelson and Burns), 304 (Abst.)
Prosoplasia (adenosis), gland cell, of vagina (Siders, Parrott, and Abell), 190
proteins, serum, in cervical mucus (Schumacher, Strauss, and Wied), 1035
Proteolytic enzymes and their inhibitors in human gynecological tumors (Blackwood, Mandl, and Long), 419
Psychologic aspects of obstetric-gynecologic practice (Friederich, Romano, and Lund), 1029
Puerperium, blood volume changes in pregnancy and anemia associated with hydatidiform mole (Pritchard), 621
oxytocin-equivalent activity in plasma of women in labor and during (Coch et al.), 10
pneumococcal meningitis in pregnancy and (Lucas), 889 (Abst.)
Pulmonary hypoplasia, fetal, and hydramnios (Bates), 295 (Comm. in brief)
Pyrimidine nucleotide catabolism in human placenta, studies on placental metabolism (Hayashi and Olmsted), 711 (Current investigation)

R

Rabbit ova, effects of certain antifertility agents on development (Chang), 890 (Abst.)
Radiation and intra-arterial chemotherapy, combined, for advanced cervical carcinoma (Hulka and Bisel), 486
Radical surgery, carcinoma primary in Bartholin's gland—5 year survivals after (Sackett), 1149 (Comm. in brief)
Wertheim as salvage procedure (Tupper), 364
Ratio, collagen-muscle, in normal and incompetent cervices (Buckingham, Buethe, and Danforth), 232
Radioactive sodium, transport across rat placenta in experimental toxemia of pregnancy (Quigley, Phillips, and McKay), 377
therapy, intralymphatic, for pelvic cancer (Siegel and Liebner), 122
Reaction, Shwartzman, diet-induced, lipid peroxides and (Goldstein and McKay), 843
Rectovaginal fistulas, colpocleisis for difficult vesicovaginal and (Blaikley), 589
Re-evaluation, 443
Regeneration, epithelial, of human uterine cervix (Lang and Aponte), 657
Renal function of normal and full-term infants in first hours of extrauterine life (Strauss, Adamsons, and James), 286
Reproductive biology, fellowship with emphasis on early reproduction, 588 (Item)
cycle, endometrial effects produced by oral administration of steroids to control (Durkin, Lin, and Kim), 110
tract, female, viral studies of (Christian et al.), 430
Respiratory function in healthy and abnormal fetuses (Persianinov et al.), 941
Retardation, mental, in children without metabolic defect, maternal phenylketonuria as cause of (Mabry et al.), 893 (Abst.)
Reviews and abstracts, 299-307, 584-587, 886-894
Roster, 168-172
Rubella, maternal, cytogenetic analysis of abortuses following (Valenti), 1141
virus, isolation from products of conception (Monif et al.), 1143
Rupture, spontaneous, of uterus during pregnancy, abdominal retention of dead fetus following (Fahmy and Amin), 581 (Comm. in brief)

S

Saline, hypertonic, in midpregnancy, progesterone concentrations in uterine venous blood after intra-amniotic injection of (Short et al.), 132 (Current investigation)
Salvage procedure, radical Wertheim as (Tupper), 364
Scrotal testes, effect of chorionic gonadotropin therapy on fertility in males with (Turner, Zanartu, and Nelson), 890 (Abst.)
Serum alkaline phosphatase, maternal and placental function (Levine and Wood), 967
ascorbic and dehydroascorbic acid concentrations during menstrual cycle, cervical mucus and (Kofoed et al.), 95
chorionic gonadotropin studies, quantitative, in abnormal pregnancy (Goplerud and Bradbury), 23
proteins in cervical mucus (Schumacher, Strauss, and Wied), 1035
skeletal muscle, and myometrium, effects of pregnancy on concentration of creatine kinase in (Emery and Pascasio), 18
Seventh Annual Residents' Day, Wayne University School of Medicine, 754 (Item)
Shirodkar operation, modified (Russo and Palermino), 238
Shock, endotoxin, hemodynamic action of vasopressor and vasodepressor agents in (Morris, Smith, and Assali), 491
Shunt, splenorenal, report of two pregnancies following (Hanzlik), 1147 (Comm. in brief)
Shwartzman reaction, diet-induced, lipid peroxides and (Goldstein and McKay), 843
Sickle cell anemia, children with, intellectual status of (Chodorkoff and Whitten), 299 (Abst.)
Smoking, cigarette, infant survival, and (Kraus and Levin), 881; reply (Yerushalmy), 883 (Correspondence)
relationship to outcome of pregnancy (Underwood et al.), 270
Society of Obstetricians and Gynaecologists of Canada, transactions of twentieth annual meeting, 309-368
Sodium, radioactive, transport of across rat placenta in experimental toxemia of pregnancy (Quigley, Phillips, and McKay), 377

Sparteine sulphate, effects on uterine contractility, tocographic study (Embrey and Yates), 891 (Abst.)
upon uterine activity in human pregnancy (Hendricks et al.), 1
Spermatozoa, passage of rat and foreign, through uterotubal junction of rat (Marcus), 985
Splenorenal shunt, report of two pregnancies following (Hanzlik), 1147 (Comm. in brief)
Spondylolisthesis and pregnancy (Trelford), 320
Stein-Leventhal syndrome, corticosteroid-like substances detected histochemically in ovaries of women suffering from (Dokumov and Dashev), 185
Sterility—the diagnostic survey of infertile couple (Williams), 887 (B. rev.)
recurrent, abortion, and menstrual troubles, gynecologic functions of (Palmer), 585 (B. rev.)
Sterilization, contraception, and therapeutic abortion (Hall), 518
Steroid synthesis in cryptorchid testes in three cases of "testicular feminization" syndrome (Kase and Morris), 102
Steroids, endometrial effects produced by oral administration of, to control reproductive cycle (Durkin, Lin, and Kim), 110
Strength of fetal membranes, method for investigation (MacLachlan), 309
Stress incontinence, clinical investigation into uterine prolapse with (Bailey), 890 (Abst.)
pregnancy, childbirth, and menopause related to development of (Beck and Hsu), 820
simultaneous intraurethral and intravesical pressure studies in patients surgically treated for (Beck, Hsu, and Maughan), 314
vaginal support, and (Shute), 824
maternal, fetal response to (Wolkoff and Flowers), 303 (Abst.)
Strings and amnionic bands, amniochorionic mesoblastic fibrous (Torpin), 65
Stromal trophoblastic buds (Boyd and Hamilton), 891 (Abst.)
Suckling, endocrine effects of, mirrored by collagen changes in endometrium (Fainstat), 509
Surgical operation (Grewe), 585 (B. rev.)
Survival, infant, cigarette smoking, and (Kraus and Levin), 881; reply (Yerushalmy), 883 (Correspondence)
Suspension, urethrovesical, and urethroplasty, simplified (Harer and Gunther), 1017
Symposium on Sterility, Fourth Italian, 167 (Item)
Syndrome, acute Meigs', secondary to ovarian stimulation with human menopausal gonadotropins (Neuwirth, Turksoy, and Vande Wiele), 977
of unexplained delayed menstrual period (Soferman and Haimov), 137 (Pertinent comments)
Synthesis, steroid, in cryptorchid testes of three cases of "testicular feminization" syndrome (Kase and Morris), 102
Systemic changes during menstrual cycle (Southam and Gonzaga), 142 (Current developments)

T

Test, atropine, for placental transfer in gravidas with toxemia and diabetes, analysis of (Hellman and Fillisti), 797
Testes, cryptorchid, steroid synthesis in, of three cases of "testicular feminization" syndrome (Kase and Morris), 102
scrotal, effect of chorionic gonadotropin therapy on fertility in males with (Turner, Zanartu, and Nelson), 890 (Abst.)
"Testicular feminization" syndrome, steroid synthesis in cryptorchid testes of three cases of (Kase and Morris), 102
Thalidomide and trypan blue, morphological and physiological effects on uteri and concepti of gravid mice (McCafferty, Wood, and Knisely), 260
Therapeutic abortion, sterilization, and contraception (Hall), 518
evacuation of uterus in pregnancies beyond twelfth week (Bora), 1148 (Comm. in brief)
Tocography, external, and cervix, prediction of premature labor by observation of (Wood et al.), 396
Toxemia and diabetes, analysis of atropine test for placental transfer in gravidas with (Hellman and Fillisti), 797
experimental, and normal pregnancy, potassium transport in kidney and placenta in (Zunker, Phillips, and McKay), 269
of pregnancy, transport of radioactive sodium across rat placenta in (Quigley, Phillips, and McKay), 377
of pregnancy, 837-851
between 1930 and 1962, statistic evaluation of (Lietz), 306 (Abst.)
and chorioangioma (Heggtveit, de Carvalho, and Nuyens), 291 (Comm. in brief)
probable, in patient with Addison's disease (Langford), 269 (Comm. in brief)
Toxemias of pregnancy, observations on (Brody), 301 (Abst.)
Training in reproductive biology-fellowship with emphasis on early reproduction, 588 (Item)
Transactions of the Twentieth Annual Meeting of the Society of Obstetricians and Gynaecologists of Canada, 309-368
Seventy-fifth Annual Meeting of American Association of Obstetricians and Gynecologists, 589-708
continued, 755-819
Transfer, placental, in gravidas with toxemia and diabetes, analysis of atropine test for (Hellman and Fillisti), 797
Transfusion, placental, of normally delivered infants, renal funtcion after (Strauss, Adamsons, and James), 286
Trichomoniasis, vaginal, observations on, epidemiological studies (Robinson, Mirchandani, and Causing), 1001
significance of vaginal flora under various conditions (Robinson and Mirchandani), 1005
Trophoblastic buds, stromal (Boyd and Hamilton), 891 (Abst.)
cells in vitro by time-lapse photography, analysis of (Valenti), 550
tumors, chemotherapy and developments (Bagshawe), 888 (Abst.)
Trypan blue and thalidomide, morphological and physiological effect on uteri and concepti of gravid mice (McCafferty, Wood, and Knisely), 260
Tuberculosis, female pelvic, with special reference to infertility (Poland), 350
of genital organs (Schaefer and Sutherland), 714 (Clinical problems)
Tumors, human gynecological, proteolytic enzymes and their inhibitors in (Blackwood, Mandl, and Long), 419
of mesonephric origin (Greene), 877 (Correspondence)
pelvic, 204
trophoblastic, chemotherapy and developments (Bagshawe), 888 (Abst.)
Twin gestation, fetal interlocking complicating (Cohen, Kohl, and Rosenthal), 407
Twins, comparison in set of double ovum, stillborn and live-born, placental and cord blood lipids (Nelson, Zuspan, and Mulligan), 949
human, placental circulation of (Bleisch), 862

U

Ultrasound, with cephalometry (Anderson and Niswonger), 563
fetal, cephalometry by (Willocks et al.), 891 (Abst.)
Umbilical blood flow in healthy newborn infants during first minutes after birth (Stembera, Hodr, and Janda), 568
cord, prolapse of (Nelson and Burns), 304 (Abst.)
Urethra, female, diverticulum of (Spraitz and Welch), 1013
Urethroplasty, simplified urethrovesical suspension, and (Harer and Gunther), 1017
Urethrovesical suspension and urethroplasty, simplified (Harer and Gunther), 1017
Urinary estriol excretion, use of, in management of pregnancies complicated by diabetes mellitus (Greene et al.), 684
estrogen levels, placental structure and, relation between (Breborowicz, Krzywińska, and Pisarski), 1107
excretion of human chorionic gonadotropin during prolonged pregnancy and labor (Danielsson), 895
Urologic problems, 820-836, 1013-1021
Uteri and concepti of gravid mice, morphological and physiological effects of thalidomide and trypan blue on (McCafferty, Wood, and Knisely), 260
Uterine activity in human pregnancy, effect of sparteine sulfate upon (Hendricks et al.), 1
cervix human, epithelial regeneration of (Lang and Aponte), 657
contractility, human, objective evaluation of paracervical block on (Zourlas and Kumar), 217
pregnant, in vivo effect of amyl nitrite on (Kumar, Zourlas, and Barnes), 1066
in pregnant women, effect of acetylcholine and atropine upon (Sala and Fisch), 1069
tocographic study of effects of sparteine sulphate on (Embrey and Yates), 891 (Abst.)
fluid in rat, effects of estrogen and progesterone on pH of (Marcus), 114
inversion—obstetrical entity or oddity (Bunke and Hofmeister), 934
myometrium and leiomyomatous neoplasms, mast cells in (Fox and Abell), 413
prolapse with stress incontinence, clinical investigation into (Bailey), 890 (Abst.)
venous blood, progesterone concentrations in, after intra-amniotic injection of hypertonic saline in midpregnancy (Short et al.), 132 (Current investigation)
Uterotubal junction of rat, passage of rat and foreign spermatozoa through (Marcus), 985
Uterus, brain and, correlated activity of, during parturition (Ling, Lawder, and De Maria), 925
carcinoma of, and pregnancy (Molitor), 307 (Abst.)
extracellular studies of, endocrine effects of suckling mirrored by collagen changes in endometrium (Fainstat), 509
pregnant human, action of isoxsuprine and its (+) isomer on (Eriksson and Wiqvist), 1076
rupture during pregnancy, abdominal retention of dead fetus following (Fahmy and Amin), 581 (Comm. in brief)
therapeutic evacuation of, in pregnancies beyond twelfth week (Bora), 1148 (Comm. in brief)

V

Vacuum extractor, use of (Barth and Newton), 403
Vagina and ectocervix, multiple areas of endometriosis of (Dilts and Greene), 292 (Comm. in brief)
gland cell prosoplasia (adenosis) of (Siders, Parrott, and Abell), 190
Vaginal douche, observations on some of its effects (Long et al.), 304 (Abst.)
involvement in endometrial carcinoma (Price, Hahn, and Rominger), 1060
maturation index and endometrial carcinoma (Ritchie), 578 (Comm. in brief)
neoplasms, 190
support and stress incontinence (Shute), 824
trichomoniasis. III. Epidemiological studies (Robinson, Mirchandani, and Causing), 1001
observations on. IV. Significance of vaginal flora under various conditions (Robinson and Mirchandani), 1005
Vaginitis, Hemophilus vaginalis, diagnosis of, by gram-stained smears (Dunkelberg), 998
Vascular reactivity to angiotensin II and norepinephrine in pregnant and nonpregnant women (Chesley et al.), 837
Vasodepressor and vasopressor agents, hemodynamic action of, in endotoxin shock (Morris, Smith, and Assali), 491
Vasopressor and vasodepressor agents, hemodynamic action of, in endotoxin shock (Morris, Smith, and Assali), 491
Vertex presentation, normal labor in (Cibils and Hendricks), 385
Vesicovaginal and rectovaginal fistulas, colpocleisis for difficult (Blaikley), 589
Viral studies of female reproductive tract (Christian et al.), 430
Virilizing disorders, significance of plasma dehydroisoandrosterone and androsterone sulfates in diagnosis of (Conrad, Lindberg, and Herrmann), 449
Virus, rubella, isolation from products of conception (Monif et al.), 1143
Vitamin K prophylaxis and hemorrhage in newborn (Wefring), 300 (Abst.)
von Willebrand's disease, elevation of factor VIII (antihemophilic factor) during pregnancy in normal persons and in patient with (Strauss and Diamond), 301 (Abst.)
Vulvar epithelia, metabolic activity in normal and abnormal (Woodruff et al.), 809

W

Weather, eclampsia and (Griswold and Cavanagh), 847
Weight, birth, in normal pregnancy, factors influencing (Love and Kinch), 342
changes in college women during menstrual cycle (Golub, Menduke, and Conly), 89
Wertheim, radical, as salvage procedure (Tupper), 364

X

X-ray pelvimetry—critical appraisal (Hannah), 333

A

Aberrations, sex chromosome, neutrophil appendages as indicators of (Bamford et al.), 1163 (Abst.)
Abnormal trophoblast, persistence of (Kirk), 667
Abortion, prediction, from vaginal wall cytologic smears (McLennan and McLennan), 620
Abortions, fatalities associated with (Schoeneck), 294 (Abst.)
Absorption, erythrocyte, from amniotic fluid, question of, studies on method of intrauterine transfusion (Queenan et al.), 1009 (Current investigation)
Abstracts, selected, 284-297, 1163-1167
Acetate, medroxyprogesterone, management of advanced endometrial adenocarcinoma with (Anderson), 87
Acid levels, nonesterified fatty, glucose and, in maternal and cord plasma (Whaley, Zuspan, and Nelson), 264 (Current investigation)
serum, nonesterified fatty, in human pregnancy determined by various titration procedures (Nelson), 202
nonesterified fatty, epinephrine-norepinephrine alterations, plasma glucose and, epinephrine infusions in normal and toxemic pregnancies (Zuspan, Nelson, and Ahlquist), 1102
Acridine orange fluorescence microscopy, application, experimental carcinoma of uterine cervix in mice (Stevenson and Von Hamm), 1164 (Abst.)
technique in study of gynecologic biopsy material, use (Cunningham and Roddick), 468
Addendum to Roster of American Obstetrical and Gynecological Societies published in Jan. 1, 1965, issue of JOURNAL, 746
Adenocarcinoma, endometrial, advanced, management of with medroxyprogesterone acetate (Anderson), 87
of endometrium, operative treatment in obese women (Prem, Mensheha, and McKelvey), 16
extragenital, metastatic to cervix uteri (Esposito, Zarou, and Zarou), 752
of uterus, cytologic detection, in mass screening project (Coleman, Rube, and Erickson), 472
Adenomatoid tumor of ovary versus mesothelial reaction (Jones and Donovan), 694
Administration, reserpine, during pregnancy (Towell et al.), 711
Adolescence, childhood and, ovarian neoplasms in, tumors of germ cell origin (Abell, Johnson, and Holtz), 1059
Adrenocortical responsiveness during progestin therapy, inhibition (Leach and Margulis), 762
Alkaline phosphatase activity, neutrophil, in patients with choriocarcinoma and unrelated trophoblastic tumors, undelivered hydatidiform mole, and in normal pregnancy (Goldstein), 1014 (Current investigation)
American Board of Obstetrics and Gynecology, certification, 1168 (Item)
Part I examination, 582 (Item)
Part II examination, 1176 (Item)
Obstetrical and Gynecological Societies published in Jan. 1, 1965, issue of JOURNAL, Addendum to Roster, 746
Society of Cytology, 1176 (Item)
Aminopeptidases in sera from pregnant women, destruction of oxytocin and vasopressin by (Glendening et al.), 814
Amnii, liquor, examination of, as method of predicting severity of haemolytic disease of newborn (Walker, Fairweather, and Jones), 1166 (Abst.)
prolonged leakage, newborn after (Bain, Smith, and Gauld), 1167 (Abst.)
Amniocentesis and spectrophotometric scanning of amniotic fluid, Rh problem in obstetrics and new concept of its management using (Freda), 341
Amniotic fluid evaluation and intrauterine transfusions for erythroblastosis fetalis (Westberg and Margolis), 583
Rh problem in obstetrics and new concept of management using amniocentesis and spectrophotometric scanning of (Freda), 341
in rhesus isoimmunization (Robertson), 1166 (Abst.)
spectrophotometric analysis of (Crosby and Merrill), 53
question of erythrocyte absorption from, studies on method of intrauterine transfusion (Queenan et al.), 1009 (Current investigation)
Anaerobic metabolism in human fetus. II. Twin delivery (Derom), 555
study, microbiology of cervix (Oliver, Henderson, and Byrnes), 970
Analgesia, anesthesia and, anesthetic techniques for (Moore), 886 (B. rev.)
and fetal depression with intravenous meperidine and propriomazine (Kliger and Nelson), 850
Analgesics, phenothiazines and, given during labour, effect on neonatal serum bilirubin (McDonald, Shaw, and Craig), 287 (Abst.)
Anaphylactic reaction of uterus, sterility and, mechanism of experimental sterility induced in guinea pigs by injection of homologous testis and sperm (Ashitaka, Isojima, and Ukita), 291 (Abst.)
An(a)emia in pregnancy, severe, with exchange transfusion treatment (Menon and Willmott), 292 (Abst.)
Anesthesia, and analgesia, obstetrical, anesthetic techniques for (Moore), 886 (B. rev.)
caudal, accidental intoxication of fetus with local anesthetic drug during (Finster et al.), 922
single injection (Gunther and Harer), 305
Anesthetic drug, local, during caudal anesthesia, accidental intoxication of fetus (Finster et al.), 922
Anovulatory females, further observations on effects of clomiphene citrate in (Kistner), 380
Antepartum administration of thiazide drugs, neonatal thrombocytopenia associated with (Rodriguez, Leikin, and Hiller), 294 (Abst.)
Anterior vaginal suspension operation for treatment of stress incontinence (Durfee), 610
Antibody, rubella, among pregnant women in Hawaii (Sever et al.), 1006 (Current investigation)
sperm-immobilizing, sterility and, relationship between, mechanism of experimental sterility induced in guinea pig by injection of homologous testis and sperm (Ashitaka, Isojima, and Ukita), 291 (Abst.)
titers, maternal and newborn staphylococcus, during gestation and at delivery (Margulis and Fisher), 232
Anti-Jk^a, hemolytic disease of newborn caused by (Geczy and Matheson), 576 (Comm. in brief)
Appendages, neutrophil, as indicators of sex chromosome aberrations (Bamford et al.), 1163 (Abst.)
Appendix, mucocele of, simulating ovarian tumor (Brandes and Peretz), 579 (Comm. in brief)
Arrhenoblastoma of ovary (Novak and Long), 1082

Arteriovenous fistula, congenital, and pregnancy (Benson et al.), 672
Ascitic fluid, cytologic diagnosis (Celeen), 284 (Abst.)
Autonomic nervous system, role in nutrition of products of conception: Effect of pelvic parasympathectomy on uterine and subplacental decidual blood flow (Toth, McEwen, and Shabanah), 292 (Abst.)
in uterine motility and blood flow. Visual, auditory, and painful stimuli and influence on uterine motility before and after cord section (Shabanah, Toth, and Maughan), 796

B

Bacteriuria in pregnancy (Carleton, Baker, and Richards), 227
Band, ovarian stromal lipid, stromal theca cell, and normal ovarian follicular apparatus, comparative histochemical study (Fienberg and Cohen), 958
Bank, human sperm, preliminary experience with (Steinberger and Perloff), 577 (Comm. in brief)
Basement membrane of human ectocervix, correlative light and electron microscope study (Younes et al.), 163
Behaviour, sexual, human reproduction and (Lloyd), 280 (B. rev.)
Benign breast disease, breast cancer, and urinary excretion of estrone, estradiol, and estriol by patients with (Marmorston et al.), 460
of neutral 17-ketosteroids and pregnanediol by patients with (Marmorston et al.), 447
cystic teratoma of ovary, in Hashimoto's disease (Erez, Richart, and Shettles), 273 (Comm. in brief)
unusual case (Georgakopoulos), 573 (Comm. in brief)
Betatron therapy, of carcinoma of vulva, surgical treatment and results with (Lisse), 297 (Abst.)
Bilirubin, neonatal serum, effect of phenothiazine and analgesics, given during labour (McDonald, Shaw, and Craig), 287 (Abst.)
Bioassay, Delfs, and two International Standard preparations, immunoassay of serum human chorionic gonadotropin by quantitative complement fixation and comparison with (Lau and Jones), 483
Biochemical aspects of hormone action (Eisenstein), 277 (B. rev.)
Biological and clinical aspects of placental steroidogenesis, meeting on (Polvani and Bompiani), 280 (B. rev.)

percutaneous kidney, in toxemia of pregnancy (Lopez-Llera and Rubio), 1107
Birth, human labor and (Oxorn and Foote), 280 (B. rev.)
weight, aspects of, and influencing variables (O'Sullivan, Gellis, and Tenney), 1023 (Pertinent comments)
Blood ceruloplasmin activity during human pregnancy with special reference to Tay-Sachs disease (Abood and Lipman), 529
coagulability and oral contraception (Pilgeram), 287 (Abst.)
fibrinolytic system, after retention of dead fetus and during normal labor (Brakman and King), 221
flow, decidual, uterine and subplacental, effect of pelvic parasympathectomy on, role of autonomic nervous system in nutrition of products of conception (Toth, McEwen, and Shabanah), 292 (Abst.)
uterine motility and, role of autonomic nervous system in. III. Visual, auditory, and painful stimuli and influence on uterine motility before and after cord section and effect of sympatholytic drugs in restoring normal activity (Shabanah, Toth, and Maughan), 796
umbilical vein, lactate/pyruvate ratio of (Marx and Greene), 548
Bonney's gynaecological surgery (Macleod and Hawkins), 277 (B. rev.)
Book reviews 277-283, 886-889
Botryoides, sarcoma, of vagina coincident with pregnancy (Roddick and Honig), 268 (Comm. in brief)
Breast cancer and benign breast disease, urinary excretion of estrone, estradiol, and estriol by patients with (Marmorston et al.), 460
of neutral 17-ketosteroids and pregnanediol by patients with (Marmorston et al.), 447
carcinoma associated with pregnancy (Robinson), 658
Breus mole (Von der Ahe), 699
Bromosulfophthalein conjugation in toxemia of late pregnancy (Brewer and Hjelte), 1114
Busulfan therapy of myelocytic leukemia during pregnancy (Earll and May), 580 (Comm. in brief)

C

Cancer (*see also* carcinoma)
accuracy of fluorescent microscopy for diagnosis of (Stevenson), 284 (Abst.)
breast, and benign breast disease, urinary secretion of estrone, estradiol, and estriol by patients (Marmorston et al.), 460
of neutral 17-ketosteroids and pregnanediol by patients with (Marmorston et al.), 447
detection, uterine, 6-phosphogluconate dehydrogenase in (Hoffman and Merritt), 650
Candida albicans (Winner and Hurley), 278 (B. rev.)
Carbohydrate tolerance, study of, thiazides and pregnancy (Esbenshade and Smith), 270 (Comm. in brief)
Carbon monoxide poisoning in pregnancy (Goldstein), 526
Carcinoma (*see also* cancer)
breast, associated with pregnancy (Robinson), 658
cervical, experimental, in mouse, histochemical studies of hydrolytic and oxidative enzymes (Taki et al.), 766
late results of treatment with Co^{60} teletherapy and intrauterine radium (Nolan), 684
of cervix in mice, DMBA-induced, influence of gonadal hormones on (Meisels), 285 (Abst.)
prevalence and significance of Class II smear in routine screening for detection (Slate), 642
uteri, micro-invasive, dysplasia, carcinoma in situ, and (Gray et al.), 886 (B. rev.)
of endometrium with use of short radio waves, attempts to localize (Ingelman-Sundberg and Odeblad), 592
experimental, of uterine cervix in mice, application of acridine orange fluorescence microscopy to (Stevenson and Von Hamm), 1164 (Abst.)
in situ, dysplasia, and micro-invasive carcinoma of cervix uteri (Gray et al.), 886 (B. rev.)
invasive, of cervix by cytologic smear, intramucosal and, differentiation between (Roberts and Linkins), 285 (Abst.)
micro-invasive of cervix uteri, dysplasia, carcinoma in situ, and (Gray et al.) 36 (B. rev.)
pelvic, lymphography and (O'Leary and Friedman), 777
recurrent, postradiation pelvic fibrosis simulating (Kaplan, Hudgins, and Wall), 117
squamous cell, of cervix (Ulfelder and Sherman), 436 (Clinical problems)
of stomach, kraurosis vulvae and (Szendi), 297 (Abst.)
of uterine cervix, sequential radiation and operation in (Decker et al.), 35
of vulva, results with surgical treatment and betatron therapy (Lisse), 297 (Abst.)

Cardiac surgery and pregnancy (Ueland), 148 (Current developments)

Catheterization, percutaneous subclavian, for central venous pressure monitoring (Malinak, Gulde, and Faris), 477

Caudal anesthesia, accidental intoxication of fetus with local anesthetic during (Finster et al.), 922
single injection (Gunther and Harer), 305

Cc-25, p-hydroxyphenylisopropylarterenol, influence of pronethalol and propanolol on uterine and systemic activity of, epinephrine derivates and activity of human uterus (Eskes et al.), 871 (Current investigation)
inhibiting effect, upon uterine activity in human pregnancy, epinephrine derivates and activity of human uterus (Stolte et al.), 865 (Current investigation)

Cell, germ, origin, tumors of, ovarian neoplasms in childhood and adolescence (Abell, Johnson, and Holtz), 1059
luteal, during menstrual cycle, ultrastructure of human ovary (Green and Maqueo), 946
stromal lipid, ovarian, stromal lipid band, normal ovarian follicular apparatus and, comparative histochemical study (Fienberg and Cohen), 958

Central Association of Obstetricians and Gynecologists, 582 (Item)

trophoblastic, chromosomal study of (Valenti), 211
Titers, maternal and newborn staphylococcus antibody, during gestation and at delivery (Margulis and Fisher), 232
Titration procedures, various, serum nonesterified fatty acid levels in human pregnancy determined by (Nelson), 202
Tolerance, maternal, of foetal tissue (Anderson and (Benirschke), 288 (Abst.)
Topical estrogen, effect of, on irradiated vaginal epithelium (Pitkin and Bradbury), 175
Toxemia control, program for (MacLaverty, Pavlic, and Smith), 100
cord around neck and, fetal heart rate in labors with, effect of maternal hypotension on human fetus (Bieniarz, Fernández-Sepúlveda, and Caldeyro-Barcia), 832
experimental, normal pregnancy and, sodium transport in kidney and placenta (Zurker, Phillips, and McKay), 325
of late pregnancy, bromosulfophthalein conjugation in (Brewer and Hjelte), 1114
of pregnancy, observations on (Brody), 293 (Abst.)
percutaneous kidney biopsy in (Lopez-Llera and Rubio), 1107
severe, methyldopa in treatment of (Hans and Kopelman), 287 (Abst.)
renal changes in hydatidiform mole with (Sanchez-Torres et al.), 498
Tracheal fluid, fetal lamb, surface properties of (Enhörning and Adams), 563
Tract, genital, of females with Class III smear, histological findings in (Torres et al.), 286 (Abst.)
Training program in reproductive biology, 1176 (Item)
Tranquilizers during labor, double blind study of effect (Gordon and Nelson), 299
Transactions of Annual Meeting of Pacific Coast Obstetrical and Gynecological Society, 583-710
Central Association of Obstetricians and Gynecologists, 1-147
Transfer, placental, of griseofulvin (Rubin and Dvornik), 882 (Comm. in brief)
Transfusion, exchange, treatment of severe anaemia in pregnancy with (Menon and Willmott), 292 (Abst.)
intrauterine, of fetus for severe erythroblastosis fetalis (Queenan and Wyatt), 375
for haemolytic disease of newborn (Holman), 1166 (Abst.)
studies on method, question of erythrocyte absorption from amniotic fluid (Queenan et al.), 1009 (Current investigation)
Transfusions, intrauterine amniotic fluid evaluation and, for erythroblastosis fetalis (Westberg and Margolis), 583
Transport, sodium, in kidney and placenta in normal pregnancy and experimental toxemia (Zunker, Phillips, and McKay), 325
Treatment of cervical carcinoma with Co^{60} teletherapy and intrauterine radium, late results (Nolan), 684
Trophoblast, abnormal, persistence of (Kirk), 667
Trophoblastic tissue, chromosomal study of (Valenti), 211
tumors, related, choriocarcinoma and, undelivered hydatidiform mole, and in normal pregnancy, neutrophil alkaline phosphatase activity in patients with (Goldstein), 1014 (Current investigation)
Tubal patency, comparative evaluation of phenolsulfonphthalein test and Rubin test for (Gromadzki, Lukasik, and Papierowski), 1094
Tumor, adenomatoid, of ovary versus mesothelial reaction (Jones and Donovan), 694
Krukenberg, complicating pregnancy (Fox and Stamm), 702
during pregnancy, virilization coexisting with (Spadoni et al.), 981
ovarian, mucocele of appendix simulating (Brandes and Peretz), 579 (Comm. in brief)
rare presacral, pelvic myelolipoma (Benson and Janko), 884 (Comm. in brief)
Tumors of germ cell origin, ovarian neoplasms in childhood and adolescence (Abell, Johnson, and Holtz), 1059
trophoblastic, related, choriocarcinoma and, undelivered hydatidiform mole, and in normal pregnancy, neutrophil alkaline phosphatase activity in patients with (Goldstein), 1014 (Current investigation)
Twin delivery, anaerobic metabolism in human fetus (Derom), 555

U

Ultrasonic pulse echo techniques, fetal development as determined by (Thompson et al.), 44
Ultrastructure of human ovary. I. Luteal cell during menstrual cycle (Green and Maqueo), 946
Umbilical cord, human, length of, at term (Malpas), 286 (Abst.)
vein blood, lactate/pyruvate ratio of (Marx and Greene), 548
Ureteral function in pregnant women. I. Preliminary report (Sala and Rubí), 918
Urethral diverticula, recognition and repair (Hoffman and Adams), 106
Urinary estriol during late pregnancy, comparison of three methods for determination of (Dale, Greene, and Duhring), 112
excretion of estrone, estradiol, and estriol by patients with breast cancer and benign breast disease (Marmorston et al.), 460
of neutral 17-ketosteroids and pregnanediol by patients with breast cancer and benign breast disease (Marmorston et al.), 447
Uteri, cervix, extragenital adenocarcinoma metastatic to (Esposito, Zarou, and Zarou), 792

Uterine activity in human pregnancy, inhibiting effect of p-hydroxyphenylisoproplyarterenol (Cc-25), epinephrine derivates and activity of human uterus (Stolte et al.), 865 (Current investigation)
cancer detection, 6-phosphogluconate dehydrogenase in (Hoffman and Merritt), 650
cervix, carcinoma of, sequential radiation and operation in (Decker et al.), 35
experimental carcinoma of, in mice, application of acridine orange fluorescence microscopy (Stevenson and Von Hamm), 1164 (Abst.)
ripening in term pregnancy due to action of estradiol-17β (Pinto, Rabow, and Votta), 319
motility and blood flow, role of autonomic nervous system in (Shabanah, Toth, and Maughan), 796
and subplacental decidual blood flow, effect of pelvic parasympathectomy on (Toth, McEwen, and Shabanah), 292 (Abst.)
and systemic activity of p-hydroxyphenylisopropylarterenol (Cc-25), influence of pronethalol and propanolol, epinephrine derivates and activity of human uterus (Eskes et al.), 871 (Current investigation)
Uterus, adenocarcinoma of, in mass screening project, cytologic detection (Coleman, Rube, and Erickson), 472
case of rupture of, in fourth month of pregnancy (Carsten), 297 (Abst.)
human, activity of, epinephrine derivatives and, influence of pronethalol and propanolol on uterine and systemic activity of p-hydroxyphenylisopropylarterenol (Cc-25) (Eskes et al.), 871 (Current investigation)
epinephrine derivates and activity. I. Inhibiting effect of p-hydroxyphenylisopropylarterenol (Cc-25) upon uterine activity in human pregnancy (Stolte et al.), 865 (Current investigation)
placenta and, of rabbit, renin-like substance in (Gross et al.), 293 (Abst.)
relationship between sterility and anaphylactic reaction of, mechanism of experimental sterility induced in guinea pigs by injection of homologous testis and sperm, (Ashitaka, Isojima, and Ukita), 291 (Abst.)
sarcoma arising in leiomyoma of (Montague, Swartz, and Woodruff), 421

V

Vaccination, smallpox, in pregnancy (Bourke and Whitty), 288 (Abst.)
Vacuum extractor, five years' experience with (Chalmers), 288 (Abst.)
Vagina, sarcoma botryoides of, coincident with pregnancy (Roddick and Honig), 268 (Comm. in brief)
Vaginal, cervical and, cells under hormonal stimulus, lipid patterns in (Masin and Masin), 285 (Abst.)
cytology, practical value, in pregnancy. II. Vaginal smears during labor (Soule), 1164 (Abst.)
in pregnancy, practical value. I. Cytological prediction of fate in early pregnancy (Soule), 1163 (Abst.)
epithelium, irradiated, effect of topical estrogen on (Pitkin and Bradbury), 175
examinations, routine, during labor (Peterson et al.), 310
fibromyomas (Kettle and Loeffler), 574 (Comm. in brief)
suspension operation, anterior, for treatment of stress incontinence (Durfee), 610
vault prolapse, Cooper ligament repair (Langmade), 601
wall cytologic smears, prediction of abortion from (McLennan and McLennan), 620
Vaginitis, senile, treatment of, with low doses of synthetic estrogens (Quinlivan), 172
in women, diagnosis and treatment (Gray and Barnes), 125
Vaginoperineotomy (Schneider and Durfee), 428
Varicella, neonatal, in hospital nursery, occurrence of (Matseoane and Abler), 575 (Comm. in brief)
Vascular lesion, immunopathologic, in normal and abnormal pregnancies (Burstein et al.), 78
Vasopressin, oxytocin and, destruction of, by aminopeptidases in sera from pregnant women (Glendening et al.), 814
Vault prolapse, vaginal, Cooper ligament repair (Langmade), 601
Vein blood, umbilical, lactate/pyruvate ratio of (Marx and Greene), 548
Vena cava, inferior, in late pregnancy, studies (Kerr, Scott, and Samuel), 286 (Abst.)
Venous pressure monitoring, central, percutaneous subclavian catheterization for (Malinak, Gulde, and Faris), 477
Virilization coexisting with Krukenberg tumor during pregnancy (Spadoni et al.), 981
Volume, maternal heart, and prematurity (Terris et al.), 941
Vulgaris, pemphigus, complicated by pregnancy (McElin and Cromer), 1122
Vulva, carcinoma of, results with surgical treatment and betatron therapy (Lisse), 297 (Abst.)
Vulvae, kraurosis, and carcinoma of stomach (Szendi), 297 (Abst.)

W

Wall, vaginal, cytologic smears, prediction of abortion from (McLennan and McLennan), 620
Water metabolism of fetus (Seeds), 727 (Current developments)
Weight, birth, aspects of, and influencing variables (O'Sullivan, Gellis, and Tenney), 1023 (Pertinent comments)
reduction and postmenopausal estrogenic effect (De Waard and Schwarz), 1164 (Abst.)
